

ABSTRACT OF THE DISCLOSURE

The disclosure relates to novel cosmetic compositions comprising, in a cosmetically acceptable medium, at least one ingredient chosen from opacifiers and nacreous agents, and at least one amphoteric surfactant chosen from alkylamphohydroxyalkylsulphonates and salts thereof. The disclosure also relates to methods for imparting cosmetic properties to keratin materials, such as improved disentangling, smoothing, volume, lightness, softness, flexibility and manageability.

The disclosure still further relates to compositions for washing and/or treating keratin materials, such as the hair or the skin.
